Preparation and Rules

1) Students and teachers **must log-in the Webex meeting room during 14.15-14.30 hrs**. Because the instructor will lock the meeting room after the session starts 15 minutes and you are not able to attend the training session if you are late over 15 minutes.

2) Students should be **polite in the CHAT room**, otherwise we will report back to the teacher and terminate the participation of that student.

3) **For all training sessions**, we suggest each school to use only 1 computer to log-in to the webex system and connect to the projector (if possible). We suggest all students to be in one room so that the students will clearly see the presentation on a big screen.

4) **For all training sessions**, we suggest each student to have an individual notebook/computer to follow the instructor.

5) We request **all students/teachers to download and install the software** in the individual notebook/computer prior to the 1st training session.

   Please click on the following link to download the software.
   https://seagamedev.wordpress.com/2017/02/07/tools-preparation/

6) If you are not able to join the training sessions, you can view the previous lectures and presentation files from the Blog of the instructor. https://seagamedev.wordpress.com.

7) The consultative sessions will be conducted on demand. The instructor will inform you later for the schedule and webex code.

8) Due to a large number of participants, we need to conduct the training into 2 groups for each week.

   a. **Group A: Students of Malaysia, Indonesia, and Brunei Darussalam** will be trained on 14 Feb and every Monday on 20 Feb, 27 Feb, 6 March, 13 March, 20 March, 27 March, 3 April at 13.00-15.00 hrs (Bangkok time).

   b. **Group B: Students of Cambodia, Lao PDR, Myanmar, Philippines, Thailand, Singapore, Vietnam, India and all waiting-list teachers** will be trained every Friday on 17 Feb, 24 Feb, 3 March, 10 March, 17 March, 24 March, 31 March, 7 April at 14.30-16.30 hrs (Bangkok time).
