TECHNOLOGY SCAVENGER HUNT

Make note of at least three different technologies in Progress 1898. Predict what these store fronts will become in 1962. Were your predictions correct?

Observe some of the shops, inventions and features in 1898. Describe at least one controversial issue that may have been debated in this town. Predict if that issue has been resolved in 1962?

Select and describe a controversial issue from the shops in 1962. Are there still controversies surrounding that issue today?

Take a look at the prices of gas, and the prices of milkshakes in the diner in 1962. Estimate the price of gas and the price of a milkshake today. Compare the prices of 1962 with your estimation of prices today. Which one has had greater inflation?

TECHNOLOGY SCAVENGER HUNT

Take a walk through the Freedom Space Station. What are some of the technologies there that make living in space possible?

Look at the images and statistics of rocketry through the ages. What are some changes that have been made since the early stages of space exploration to the present?

Using the information you find in Space or in Progress, make a timeline of events that you feel have historical or scientific significance.

TIMELINE

What are some other examples of technology around COSI?
