

Annex 6 : Advertisement On Making Garbage Enzyme

"MAKING AN ENZYME FOR ALL-PURPOSE USE"

~Turning our garbage to gold is very easy, good for us ALL!~

Please start doing it now and at the same time save money on expensive chemical cleaners!

Learn how make a useful all-purpose enzyme from bits of fruits and vegetables you usually just throw away!

Date: Wednesday, 9th March 2011
Time: 2.15pm
Venue: Multipurpose Hall

All teaching and non-teaching staff must come, except teachers who have afternoon or extra classes.

**There will be a live demonstration at the end of the talk. Teachers as well as non-teaching staff are welcome to bring in citrus fruits (oranges, pineapples, kiwis, lemons etc.) that are meant to be disposed of to help with the demo.

FREE SAMPLES WILL BE GIVEN AWAY!!

~Do your bit to help save Our Earth! Use enzymes for a healthier living environment!~
