Photos showing the conduct of the “MOCK-JOB INTERVIEW” as students experience the simulation of a job application and interview. The project brings the dreams of a student almost within their reach. The value of dreaming and aiming for a productive life is highlighted in this project.

The school, Bernardo Lirio MNHS, and Mr. Brinas highlights the conduct of action researches. This project, that is exclusive to the seniors, creates better and effective school policies based on research and is beneficial to the school. On its fifth year of implementation, the project has been consulted by the school in revising and improving its student handbook and school rules and regulations.

#### **PROJECT SUMMARY FOR THE SCHOOL YEAR**

The projects the students engaged with for a whole year will supplement the classroom discussions and transform it to real-life situation to further the quality of teaching –learning experience.

“Learning-by-doing” is advocated and implemented in assuring the highest form of learning. This is according to the “Cone of Learning” by Edgar Dale (1969).
