She is graduated more than 10 years ago in computer sciences, but currently is pursuing her passion in ICT for education. She had her dual degree undergraduate program in Berufskademie Stuttgart and in Electronic Engineering Polytechnic Surabaya. Continued by pursuing her career in Vocational Education Development Center in Malang, those marked her involvement in vocational education. She is working with SEAMOLEC since 2008 and currently trusted as Ad interim Deputy Director for Program.

With SEAMOLEC, she is working in various international projects. Her recent contributions in 2021 are including (1) South-East Asia Sales Competition funded by the Erasmus+, European

Union, (2) SEAMOLEC initiatives on Common ASEAN Tourism Curriculum-based online courses development, (3) International Telecommunication Union - Indonesia Schools Connectivity Assessments funded by the FCDO, UK (4) Development of Digital Human Resources through Online Education for the Development of Digital Economy – a national priority research funded by the MoECRT.
