

# 11<sup>th</sup> SEAMEO-University of Tsukuba Symposium (Virtual)

Technology and Values - Driven Transformation in Education

20-22 February 2023

## ABSTRACT

---

Prof. RYOSUKE Ohniwa  
University of Tsukuba and  
Japan Forum for Internationalization of Universities  
Japan

Topic: JV-Campus for the Transformation of Teacher and Higher Education

JV-Campus is an all-Japan international online education platform. The pilot project started in March 2022 as a core project of Japan Forum for Internationalization of Universities (JFIU) with the support of Top Global University Project offered by MEXT. JV-Campus is going to function as a gateway to higher education in Japan, and will serve as a foundation for supporting the internationalization of universities in the post-corona era. By gathering contents and content providers that serve as a bridge between Japan and the world. JV-Campus aims to achieve "increase in foreign students," "post-studying abroad education," "study abroad awareness," "development of international human resources.", etc. JV-Campus will evolve learners and organizations, by weaving and circulating wisdom together. In this presentation, I would like to introduce the recent activities of JV-Campus to encourage overseas institutions to participate.
