

ATTACHEMENT 2: PICTURES OF FLOODING AND WHY IT HAPPENED IN SCHOOL

2010

Domestic waste thrown by the communities living around the school

2011

Dumping of rubbish outside the school compound disrupted the drainage system of the school

Being a reclaimed mangrove swamp area the school still has remnants of it

Aquatic lives are also affected by the irresponsible act of littering and dumping rubbish

School experiencing Flooding

The walk way was totally submerged

AFTERMATH OF THE FLOODING, THE SCHOOL STILL WENT ON WITH THE PRIOR PROGRAMME
