

Sustainable Environmental Programs

As to when the school started its mission to care for the environment, we can never tell. All we know is that, it is like a legacy being passed on from generation to generation. From our humble beginning and simplest effort, we were able to establish a green school. Our sustainable environmental programs hone our pupils' values of being environment friendly in and out of the school premises.

As to when the school started its mission to care for the environment, we can never tell. All we know is that, it is like a legacy being passed on from generation to generation. From our humble beginning and simplest effort, we were able to establish a green school. Our sustainable environmental programs hone our pupils' values of being environment - friendly in and out of the school premises.

Monitoring cleanliness of the school ground has been one of the pupil's government's tasks ever since the establishment of the student organization.

Inspection of classrooms for electricity conservation continues. Signage posted on the wall remind the pupils to conserve electricity whenever possible.
