6. Working Ethic : I believe work is changes and its standards keep growing and challenging. In my opinion, to be responsible to my duties is the way I could do my best. By being responsible, at least I could think clearly about what I need to do to accomplish my work. Another thing is that working creatively will save me from failure and bored.
  
7. Personal Motto : Everyone of us is a leader in our own right and we begin to evolve by stepping outside of our comfort zone.
