

We truly Admire Education sector for finding ways of continuing education even during this time of pandemic which very helpful for me as an educator to learn and equip myself in the so called New Normal this seminar emphasize the different ways of how education can be possible such blending Learning which may either synchronous or asynchronous, gamification which is very attractive to the young learners using different platforms of media is very useful in education and also in communication such as Facebook, Instagram, google classroom and many more. It also reminds us that during this this we need to be calmly and positive and with mentally prepared amidst this pandemic.
