

The SEA-Teacher-TVET Lecture Series Online

“Above all else, guard your heart, for everything you do flows from it.”

Proverbs 4:23

I believe that it is not by accident that I have browsed and read **SEAMEO Secretariat** posts on the **Facebook Page** about **Webinars and Lecture Series**. This is a confirmation that everything is going to be alright. God is making a way for me and everybody who are thirst and hunger of knowledge and interventions to be globally competent and manifest continuity of learning. **SEAMEO Secretariat and SEA-Teacher-TVET Lecture Series** serve as an instrument and opportunity to spread positivity in continuing learning process in this midst of COVID-19 pandemic.

On the First Lecture Series, **“Mobility and Teaching Innovation in the New Normal”**, I have learned that, **‘TECHNOLOGY IS POWERFUL’**, and it can be used in learning to make it powerful. We are living in a very changeable world where in we must embrace change. Change for the better normal with God and with power of technology.

With the Second Lecture Series, **“Innovative Teacher Education in the New Normal”**, **‘TEACHER IS THE MOST IMPORTANT.’** As *Bill Gates* says, **“Technology is just a tool. In terms of getting the kids working together and motivating them, the teacher is the most important.”** In this new normal era, we should stay positive though there is a change in our behavior to go with the flow of the new normal setting. It leads to a new normal life following precautionary measures or health protocols set by the government to prevent transmission of COVID-19 pandemic.

Discipline and collaboration is a must. We can learn amidst COVID-19 pandemic. The choice to learn is within our hands and with the intercession of our plenipotent God. We shall overcome and we heal as one.
