

SEAMEO Online Lecture Series Webinar is all about Innovative Lectures for TVET/University Students and Teachers. With the Theme: Teaching Technology and Modern Agriculture in the New Normal. Technology Revolution, Digital Communication, Applied Electronics, Blended Learning for Mechanics, AR Integration, Modern Agriculture. It priorities the area of Early Childhood Care and Education, Addressing Barriers to Inclusions, Resiliency in the Face of Emergencies, Promoting Technical and Vocational Education and Training TVET, Revitalizing Teacher Education, Promoting Harmonization in Higher Education and Research and last Adopting a 21st Century Curriculum.

Amidst this pandemic, online webinar like this has truly enhanced my professional growth and development. From traditional teaching styles, this webinar widened my perspective on the use of new technology and provide innovative ways on how to teach using different modalities. It truly helped me to cope with the challenges of online teaching. As educator, I need to choose to be lifelong learners to be abreast with the changes in education globally with the goal that no learners will be left behind. All the speakers impart different knowledge to ease in the career we choose. You made my day more productive so I'll try to start make a difference teaching for every pupil to learn from me using new technology and share what I have learned from SEAMEO.
